2025 BUYER'S GUIDE

The AWT Buyer's Guide is a comprehensive list for specialized, cutting-edge technology and services used in industrial water treatment. Designed as an easy-to-use reference categorized by chemicals, equipment, and services, the guide catalogues suppliers that can provide everything you need to successfully compete in the water treatment arena. Save valuable time and energy; let your fingers do the walking through this all-inclusive supplier directory! We hope you find it beneficial.

**FOR MORE INFORMATION,
please contact AWT at (240) 404-6477.**

Gain More Control Of Your Water Treatment Process

MicroVision EX keeps your process running efficiently, reducing downtime, reducing scale deposition, and increasing water efficiency protecting expensive equipment and water resources*. Optimize chemical utilization by controlling conductivity, pH, ORP, while also metering inhibitor and biocide chemicals to prevent corrosion, scale and biological growth.

* Only when programmed correctly and paired with appropriate chemistry can you get performance benefits

Cooling Tower Controllers and Communications

Save Money

- Receive notifications of system upsets and make remote changes to parameters without making an unscheduled emergency visit
- Toroidal probe = No annual replacement needed, eliminates expensive service calls

Save Time

- Troubleshoot the system remotely so you can have necessary parts with you to fix the issue the first time
- Toroidal probe = No exposed electrode, no calibration needed, no guessing if the readings are correct

MicroVision^{EX} with PULSAlink

Diaphragm Metering Pumps

- Accurate dosing of liquid chemicals
- Hazardous location rated models
- Auto-degassing liquid end
- Reliable long-life cycle
- Quick prime models

PULSATRON®

Up to 25 GPH

NSF61

Up to 4.2 GPH

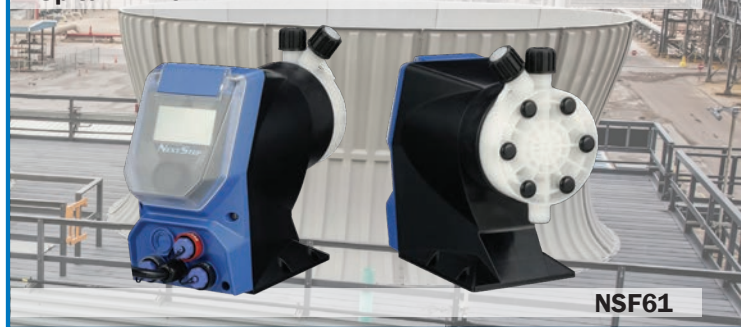

NSF61

Peristaltic Pumps

- Self-priming
- Inherently degassing
- Reliable metering performance
- Rugged, sealed all metal gear train

CHEM-TECH

Up to 21.1 GPH

NSF61

Stepper Motor Diaphragm Pumps

- 3,333:1 turndown ratio for near linear flow
- Handles viscous and off-gassing chemicals with ease
- Multiple operating modes, configure one-pump platform for numerous applications
- Eliminates pulsation effects without additional equipment

National Water Treatment Insurance Program

WaterColor Management is proud to have provided competitive and comprehensive insurance coverages to AWT members since its founding in 1986. WaterColor's basic water treatment policy combines Products, General, Professional, Pollution and Excess liability in one form. We have recently added optional Property, Inland Marine, Equipment, Stock and Business Interruption coverages to this policy.

WaterColor is a Managing Underwriter, using AM Best A+ rated security to protect you. This means that we make most underwriting and pricing decisions in-house, making us the quickest, simplest and secure port of call for your insurance quotes. We always answer the phone, and our customers have direct access to named, experienced account managers.

Call Karen Seals at (855) 929 0824 or email karen@watercolormangement.com to learn more about our services.

WaterColor's competitive AM Best A rated offerings include:

- A Combined Single Policy for General, Professional, Pollution, Products and Umbrella Liability
- Property, Stock, Tools & Equipment, & Business Interruption
- Commercial Auto & Hired & Non-Owned Auto
- Umbrella Limits available up to \$30m
- No Contaminants Exclusions e.g. PFAS, Bacteria, Viruses, and other Pathogens, Mold, Lead, Corrosives, etc.
- Affirmative Legionella coverage
- Pollution: On-site, Off-site & in Transit, up to \$25m
- New York Labor Law up to \$20m
- Fraudulent Funds Transfer and Cyber Ransom

WaterColor's clients include:

- Industrial and Commercial Water Treatment Firms
- Servicers of Boilers and Cooling Systems
- Sellers and Servicers of Water Treatment Equipment
- Manufacturers, Blenders and Distributors of Water Treatment Chemicals
- Manufacturers of Pumps and Water Treatment Equipment
- Water and Wastewater Testing Laboratories
- Consultants, Scientists & Engineers

Self-Issued Certificates of Insurance are available 24/7

WATER TREATMENT SUPPLIER COMPANIES

AMSA, Inc.

4714 S Garfield Road
Auburn, MI, 48611
(989) 662-0377
janice@amsainc.com
www.amsainc.com

AMSA, Inc. manufactures both liquid and solid products used in industrial cooling water treatment. AMSA chemistry is designed to go to surfaces, penetrate organic deposits, and release those deposits into the bulk water. When used with an oxidizing or non-oxidizing biocide, AMSA chemistry provides an effective Biofilm Control Program (BCP®). AMSA BCP™ liquid products are in the 1000, 2000 and 6000 series. BCP® solid slow-release tablets, in the BCP® 3000 series, are designed to treat smaller systems. BCP® 5000 series products are used in geothermal utilities to inhibit and remove sulfur deposits.

Advantage Controls

4700 Harold Abitz Drive
Muskogee, OK, 74402
(800) 743-7431
jon@advantagecontrols.com
www.advantagecontrols.com

Advantage Controls, founded in 1994 and based in Muskogee, Oklahoma, is a manufacturer of industrial water treatment equipment—specializing in controllers (like the MegaTron series), metering pumps, and related accessories for applications such as boilers, cooling towers, and reverse osmosis systems. Their products often feature web-enabled monitoring platforms for remote oversight, and they also offer related ancillary equipment such as glycol feed systems, prefabricated sample loops, and corrosion coupon racks.

AQUA
RESEARCH

Aqua Research, Inc.

5601 Midway Park Place NE
Albuquerque, NM, 87109
(630) 779-6997
gene@aquaresearch.com
www.aquaresearch.com

Aqua Research offers on-site mixed-oxidant generators for cooling tower treatment. Our systems produce a chlorine-and-peroxide biocide solution using common salt as a feedstock. This powerful disinfectant destroys biofilms in cooling systems, eliminating Legionella, improving thermal transfer, and saving energy. Operating costs are 2X to 9X lower than commercial biocides, offering rapid ROI, safety, and reduced logistics. Mixed oxidants are equally effective over a wide pH range, reducing the need for pH adjustment chemicals. Towers can be maintained with lower chlorine residuals, reducing corrosion and the need for anti-corrosion chemicals. We welcome regional distribution inquiries.

AQUAPHARM

AquaPhoenix Scientific

860 Gitts Run Road
Hanover, PA, 17331
(866) 632-1291
jschramm@aquaphoenixsci.com
www.aquaphoenixsci.com

AquaPhoenix Scientific is a premier provider of Smart Water and Chemical Management Solutions, featuring state-of-the-art technology, chemical feed and control equipment, high-quality test kits and reagents, and supplies. We also distribute thousands of testing products and supplies from top brands. Our goal is to save customers' time by being the "One Source" of water quality products. Aliquot®, our powerful yet easy-to-use cloud-based service reporting platform helps water treatment professionals save time, reduce errors, and operate more smoothly. Flight is a complete modem management service designed to enhance oversight, reduce costs, and strengthen security for cellular-enabled devices.

Aquapharm Specialty Chemicals

3250 Van Buren Street
Chattanooga, TN, 37415

Cortec Corporation

4119 White Bear Parkway
St. Paul, MN, 55110
(651) 429-1100
sbryan@cortecvci.com
www.cortecvci.com

Cortec® Corporation is the global leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for countless industries, including water treatment. We offer a wide range of corrosion solutions that are much safer and/or simpler compared to standard boiler and cooling system protection methods. With Cortec® strategies, you can replace the cumbersome use of desiccants, avoid hazards associated with nitrogen blanketing / hydrazine, keep your assets in good condition, and minimize downtime and labor costs during layup or operation. Our subsidiary Bionetix® provides a perfect complement to these technologies with biosolutions for wastewater treatment efficiency and oil spill cleanup.

ALWAYS THINKING

ALWAYS INNOVATING

THE BLENDER MATTERS

There is a world of difference between a one-size-fits-all toll blender and an experienced, custom water treatment blender like QualiChem.

We formulate, manufacture, and ship products to private label water treatment partners internationally.

A trusted partner with the expertise to help your business grow.

60 Thousand Oaks Boulevard
Morgantown, PA, 19543
(610) 780-2080
gary.reggiani@go2eti.com
www.go2eti.com

ETI is a leading provider of specialty water treatment chemicals, serving professionals across the industry. Our broad product portfolio and expert technical support address a wide range of water and process treatment needs. With a strong reputation for exceptional customer service, we value the long-standing partnerships we've built. Our ISO 9001:2015 certification reflects our commitment to continuous improvement and delivering unique solutions that give our customers a competitive edge. ETI is strategically positioned to meet the on-going challenges of the water treatment industry. With a forward-looking approach and a commitment to innovation, we welcome the opportunity to serve you.

Ecowaterlab Solutions

2476 Boulevard des Entreprises
Terrebonne, QC, J6X 4J8
CAN
(514) 227-3277
info@ecowaterlab.com
www.ecowaterlab.com

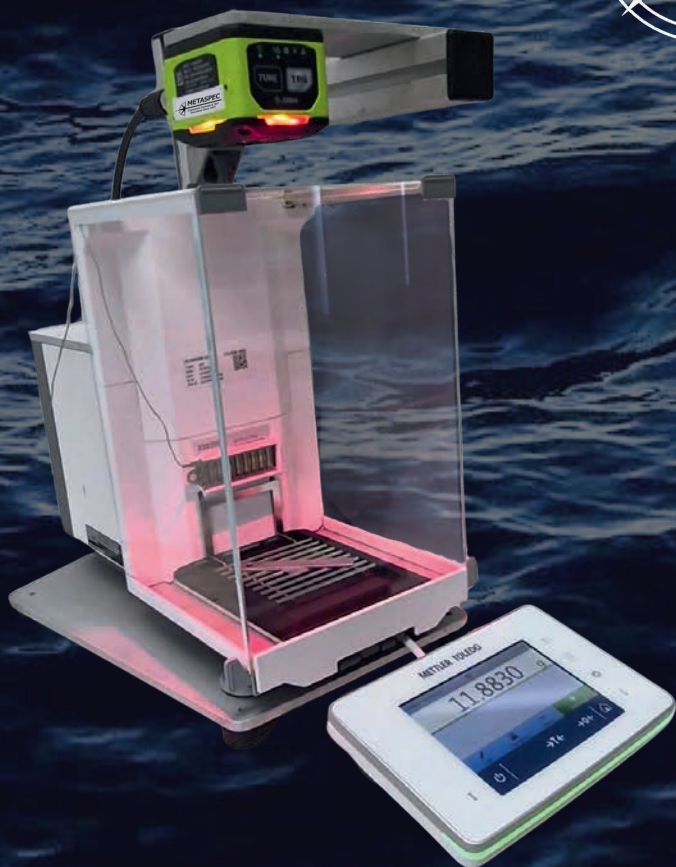

ECOWATERLAB manufactures purified tannins, offering the highest purity available on the market at the lowest price for water treaters. No middle man, straight from the producer. Private label possibilities. Online Energy analysis App. Looking for Partners and Distributors. ECOWATERLAB purified tannins and special blends are used for steam boilers and closed loops water treatment, also suitable for aluminum boilers water treatment and some waste water treatment applications. ECOWATERLAB green chemistry allows steam boilers to run safely continuously at the highest concentration cycles (8000-10,000 micromhos) with no carry-over giving energy savings through water treatment without investment.

EBS is an employee-owned wastewater consulting company specializing in comprehensive science-driven solutions. Our capabilities include advanced chemical and biological testing, system reviews, and wastewater training. We offer innovative bioaugmentation products containing specialized bacterial blends for nitrification and BOD removal, high purity carbon products for BOD supplementation, nutrient blends, and oxygen supplementation products designed to reduce sulfides, control odors, and optimize system performance. Backed by a combined 300 years of technical industrial wastewater expertise, our technical advisory council and the EBS team partner with clients to solve complex treatment challenges, improve compliance, and enhance long-term sustainability across industrial systems.

Built Environment Testing

Eurofins Built Environment Testing

2430 New Holland Pike
Lancaster, PA, 17601
(630) 538-2718
stacey.murphy@et.eurofinsus.com
www.eurofinsus.com/built

Eurofins Built Environment Testing is a trusted partner to water treatment companies nationwide, with locations from coast to coast. We provide comprehensive water testing services to help you ensure safety, compliance, and performance across all types of systems. Our expertise includes testing for: Legionella, HPC, ST108, Pseudomonas in drinking water, critical water, process water, and wastewater. We offer a secure online LIMS system where you can, view and print reports in multiple formats. • Access COCs • Review Invoices • Order kits and bottles. With Eurofins Built Environment Testing, you get more than just a laboratory, you get a responsive partner committed to helping you receive fast, reliable results.

Excel Industries Ltd.

184-87, S.V. Road,
Next to 24 Carat Multiplex,
Jogeshwari (W)
Mumbai, 400102
912270000000
umesh.prasad@excelind.com
www.excelind.co.in

Excel Industries Ltd, founded in 1941 is a specialty chemical manufacturing company, listed on both NSE and BSE. Our manufacturing facilities are ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018. We are Responsible Care logo holders and we maintain the highest standards in EHS. Our products are NSF, Kosher, Halal & REACH certified. Our range of Phosphonates, Polymers, Biocides & Specialty Chemicals finds application in Boiler & Cooling water treatment, Desalination, Reverse osmosis, Swimming pools, Oilfield, Detergents, Cleaners & various industrial applications.

HC Info (LAMPS)

600 First Avenue
Suite 330 PMB 79999
Seattle, WA, 98104
(206) 494-0267
david@hcinfo.com
www.hcinfo.com

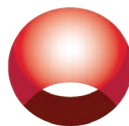

LAMPS, by HC Info, is a cloud application used by water treatment companies and facilities for ASSE 12080 certification and re-certification courses online, ASHRAE 188/514 water management plans, data analytics, IoT water quality sensor monitoring, and AAMI ST108 data management - to minimize the risk of Legionella and other waterborne pathogens, save energy, and stay in compliance. LAMPS is integrated with multiple sensor technologies and with the leading Legionella labs. HC Info received the 2019 AWT Supplier of the Year Award for LAMPS. Visit hcinfo.com or email support@hcinfo.com for more information.

Henwil Corporation

chemicalexperts@havilandusa.com
www.havilandusa.com

Employee-owned and operated, Haviland Products Company has been a leader in commodity chemistry since 1934. We streamline everything from procurement to delivery, ensuring our products reach our customers quickly, safely, and cost-effectively. Haviland offers competitive pricing and expert logistical support customized to meet your boiler, cooling and wastewater needs. Explore our extensive range of chemistry, including glycols, caustics, acids, bleach, biocides and surfactants, along with specialty wastewater treatments and private labeling options.

HOUGHTON

Houghton Chemical Corporation

52 Cambridge Street
PO Box 307
Allston, MA, 2134
(617) 254-1010
ssandperl@houghton.com
www.houghton.com

Houghton Chemical Corporation is a family-owned and operated distribution and manufacturing company with sites located throughout the United States. Our complete hydronic services include proprietary inhibited glycol blends, glycol removal services, and complementary glycol analysis. SAFE-T-THERM® is our propylene glycol product line; WINTREX® is our ethylene glycol product line; and GeoSafe® is for geothermal applications. We also offer aluminum-safe renewably sourced, and biobased glycol products. Houghton Chemical is an enthusiastic supporter of many industry and trade organizations including ACD, Responsible Distribution Program, ASTM, AWT, ASHRAE.

Hydrite

17385 Golf Parkway
Brookfield, WI, 53045
(262) 792-1450
info@hydrite.com
www.hydrite.com

Hydrite delivers innovative, cost-effective solutions for water treatment. With a consultative approach, Hydrite helps optimize chemical processes and reduce wastewater treatment costs. Expertise spans boiler systems, cooling water, closed loops, and RO feedwater pretreatment. They provide specialized equipment like M3ASURE™ a 24/7 real-time wastewater monitoring system that simulates action of board operators. It ensures consistent performance while offering historical data logging, trend analysis, and chemical consumption data. Chemistries include food-grade inhibited glycol, defoamers, and peracetic acid for wastewater, odor control, and disinfection applications. Hydrite's total water care approach ensures reliable performance, system protection, and regulatory compliance across diverse manufacturing environments.

KernDynamics LLC Recruiting

4501 Jackson Street Extension
Alexandria, LA, 71303
